

Mid-Century Modern European Abstract Space-Age Tapestry Kilim no. j5373

Description

A vibrant mid-century modern European flat-weave tapestry wall hanging featuring a graphic Space-Age abstract composition. The artwork displays a celestial/cosmic motif, centered around a large circular orb with floating geometric elements, pixelated squares, and cross symbols. The palette features a dynamic contrast of rust orange, lime green, turquoise blue, hot pink, coral, and olive green. Flat-woven in fine wool with precise color blending, the reverse is fully backed with protective lining, making it ideal as a modern textile art wall hanging or accent floor tapestry.
